

MATERIAL SAFETY DATA SHEET ASPHALT SATURATED FELTS

		Se	ection I – Pro	duct Informa	tion			
Brand Name:	Duty, #15 Type 15 I	5 ASTM Asphalt F Felt, Asphalt Felt	Felt, #15 CSA Type 30, Typ	N Perforated, ∺ pe 30 Heavy I	#15 CSA Perfora Duty, 30 Asphalt	9 Asphalt Felt, #15 [ted Felt 18", Gate Sa Felt, Type 30 Heavy halt Felt and Asphal	aturated Felt, Duty 18",	
95	510, St-Patrick s	s of Canada Corp street), Canada H8R 1F	89					
Emergency phone number:		CANUTEC 1-6	13-996-6666					
Product Uses:		This product is an organic felt impregnated with an asphalt saturant used as the felt base, as shingle underlayment in residential roofing or in built-up roofing systems.						
WHMIS Classification:		This product is not controlled by the WHMIS.						
		Sect	ion II– Prepa	aration Inforn	nation

Insoluble in water

Not measured

Relative Density(water =1):

Decomposition Temperature:

Solubility:

Viscosity:	Ν	lo object				
Section V– Fire and Explosion Data						
Flash Point:		> 250°C				
Flammable Limits in air:		No object				
Auto-Inflammation Temp	erature:	Not measured				
Specific Dangers:		Fire gives off normal products of combustion, carbon monoxide and dioxide (CO _x), nitrogen				
		oxides (NO _x) and hydrogen sulfurs.				
Fire Fighting Agents:		Use dry chemical powder, carbon dioxide (CO ₂), foam and water spray.				
Fire Fighting Equipments	5.	Wear self-contained breathing apparatus and full protective clothing.				
		Section VI– Product Stability and Reactivity				
Product Reactivity:		The product is not classified as self-reactive				
Product Stability:		Stable				
Hazardous reactions and	I polymerization:	No object				
Condition to avoid:		Avoid storing the product at excessive temperature				
Incompatible Materials:		No object				
Hazardous decompositio	n products:	Normal decomposition products.				
		Section VII– Health Hazard Data				
on Cancer (IARC) has cla	assified it as a "pro	to product: This product contains oxidized asphalt. MATERIAL SAFETY DATA SHEET ASPHALT SATURATED FELTS

	Section X– Environmental and Disposal Information				
Elimination:	The finished product is a solid. To remove, use standard means approved for disposal. Dispose in a landfill or use any other method prescribed by regulation.				
Environmental Effects:	Do not allow product or runoff from fire entering sewers, lakes, streams or drinking water pipes. Secure sewers and ditches to avoid contamination. Provincial and / or federal regulations may require that environmental agencies or other agencies have to be notified of a spill. The area must be cleaned and restored to original condition or to the satisfaction of authorities.				
Section XI– Storage					
Storage:	Store in a dry, well ventilated place away from sources of excessive heat. Product should be protected from the weather and direct sunlight.				

Since this product is a "Manufactured Article". Building Products of Canada Corp. is not required by law to produce a Material Safety Data Sheet. This Material Safety Data Sheet is provided as customer service information. The recommendations and data presented are believed to be reliable. However, no warranty is expressed or implied regarding the accuracy of the data or the results obtained from the use of this information.
