

Section I – Product Information					
Brand Name:	Gripgard, Weathertex, Mini Weathertex				
Manufacturer:	Building Products of Canada Corp 9510, St-Patrick street LaSalle (Quebec), Canada H8R 1R9				
Emergency phone number:		CANUTEC 1-613-996-6666			
Product Uses:		This product is used as an eave protection on sloped roofs as well as underlayment on low sloped roofs. It is also used in valleys and around metal flashing.			
WHMIS Classification:		This product is not controlled by the WHMIS.			
		Section II– Preparation Information			
MSDS prepared b Phone number: Revision date: Preparation date:	514-364-8768				

Component	C.A.S. No	Weight	Species	LD ₅₀ Oral	LC ₅₀ Inhalation	Hour
Oxidized Asphalt	64742-93-4	< 5%	Rat	5000 mg/kg	94,4 mg/m ³	8
Crystalline Silica (quartz)	14808-60-7	< 0.01%		Not available	Not available	

As per OSHA and WHMIS the products in section I are considered consumable items and do not require MSDS. Since, all the components mentioned in the table above are bounded in all of the products, when they are handled and used under normal conditions, there is no evidence that any of the components are released in quantities that pose a risk to health and/or safety.

The finish products are not considered hazardous as per WHMIS and OSHA, 29 CFR 1910.1200 legislations. However, we want to disclose as much as possible information relating to health and safety, to ensure that the product is handled and used properly. This MSDS contains valuable information for safe handling and proper use of the products. This MSDS should be retained and available for employees and other users.

Section IV– Physical and Chemical Properties			
Appearance at 25°C:	Solid with granules on the surface		
Odour:	Light odour of petroleum product		
pH:	No object		
Density:	Not measured		
Melting Point:	Not measured		
Freezing Point:	No object		
Boiling Point:	No object		
Evaporation Rate:	No object		
Vapor Tension:	No object		
Vapor Density:	No object		
Relative Density(water =1):	>1		
Solubility:	Insoluble in water		
Decomposition Temperature:	Not measured		
Viscosity:	No object		

MATERIAL SAFETY DATA SHEET SELF ADHESIVE MEMBRANE

MATERIAL SAFETY DATA SHEET SELF ADHESIVE MEMBRANE

	Section V– Fire and Explosion Data				
	•				
Flash Point:	> 250°C				
Flammable Limits in air:	No object				
Auto-Inflammation Temperature:	Not measured				
Specific Dangers:	Fire gives off normal products of combustion, carbon monoxide and dioxide (CO _x), nitrogen				
	oxides (NO _x) and hydrogen sulfurs.				
Fire Fighting Agents:	Use dry chemical powder, carbon dioxide (CO ₂), foam and water spray.				
Fire Fighting Equipments:	Wear self-contained breathing apparatus and full protective clothing.				
	Section VI– Product Stability and Reactivity				
Draduat Dagativity	· · ·				
Product Reactivity:	The product is not classified as self-reactive				
Product Stability:	Stable				
Hazardous reactions and polymerization:	No object				
Condition to avoid:	Avoid storing the product at excessive temperature				
Incompatible Materials:	No object				
Hazardous decomposition products:	Normal decomposition products.				
	Section VII– Health Hazard Data

MATERIAL SAFETY DATA SHEET SELF ADHESIVE MEMBRANE

	Section IX–Handling Safety Measures			
Respiratory Protection: Hands Protection: Eye protection: Protective clothing:	 If the exposure limit to dust and fumes is exceeded, if the space is poorly ventilated use a breathing apparatus for organic vapor and dust. Wearing gloves is recommended to prevent excessive skin exposure. In case of risk of projections, wearing safety glasses is recommended. Wear proper protective clothing. 			
	Section X– Environmental and Disposal Information			
Elimination:	The finished product is a solid. To remove, use standard means approved for disposal. If the product has been affected by heat or fire and the asphalt becomes liquid, allow it to cool down, then break into pieces and place them in suitable containers. Dispose in a landfill or use any other method prescribed by regulation.			
Environmental Effects:	Do not allow product or runoff from fire entering sewers, lakes, streams or drinking water pipes. Secure sewers and ditches to avoid contamination. Provincial and / or federal regulations may require that environmental agencies or other agencies have to be notified of a spill. The area must be cleaned and restored to original condition or to the satisfaction of authorities.			
	Section XI– Storage			
Storage:	Store in a dry, well ventilated place away from sources of excessive heat. Product should be protected from the weather and direct sunlight.			

Since this product is a "Manufactured Article". Building Products of Canada Corp. is not required by law to produce a Material Safety Data Sheet. This Material Safety Data Sheet is provided as customer service information. The recommendations and data presented are believed to be reliable. However, no warranty is expressed or implied regarding the accuracy of the data or the results obtained from the use of this information.
